DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please amend the first paragraph on Page 1, after the Title and before the Technical Field as follows:

--This application is CON of US Application Number 09/850,252, filed on May 7, 2001, now PAT 6,728,196, which is a DIV of US Application Number 09/730,246, on December 5, 2000, now PAT 6,890,704, which is CIP of US Application Number 09/055,825, filed on April 6, 1998, now ABN. The entire content of each of the aforementioned applications is incorporated herein by reference.- -

Response to Arguments

2. The declaration under 37 CFR 1.132 filed on 11/7/2008 is sufficient to overcome the rejection of claims based upon Suzuki et al. (US 4,947,384).

3. Applicant's arguments, see Remarks, filed on 5/28/2009, with respect to Double Patenting Rejections Under 35 USC 121, wherein Applicant argues that the double patenting rejections are in clear violation of MPEP 804.01 "Prohibition of Double Patenting Rejections Under 35 USC 121." The filing of the present application was a

direct result of various Restriction Requirements imposed by the USPTO. The subject matter restriction imposed by the Patent Office in the parent application 09/055,825 clearly indicated that stamper is patentably distinct from methods, masters and optical disk substrates (i.e. replicas). Applicant's arguments have been fully considered and are persuasive, and, therefore Double Patenting Rejections of claims have been withdrawn.

4. Applicant further argues that applicant amended independent claim 42 to recite the limitation of former claim 43 to overcome rejection of claims 42 and 46 under 35 USC 102(e), which is found persuasive and therefore, rejection of claims 42 and 46 under 35 USC 102(e) has been withdrawn.

5. Applicant further argues that combination rejection of claims 42, 45 and 46 over Sasaki et al. (US 5,325,353) in view of Ohtomo et al. (US 5,763,037), wherein applicant amended independent claim 42 to recite the limitation of former claim 43 to overcome rejection of claims under 35 USC 103(a), which is found persuasive and therefore, rejection of claims under 35 USC 103(a) has been withdrawn.

6. Applicant further argues that combination rejection of claims 43-45 over Sandstrom (US 6,002,663) in view of Sasaki et al. (US 5,325,353), wherein Applicant established that Sandstrom fails to qualify as prior art to Applicant's claims under 35 USC 103(c). Applicant suggests that at the time of the invention, the subject matter of Sandstrom and the subject matter of all pending claims of the instant application were assigned and/or subject to assignment to Imation Corp. For this reason, Sandstrom is disqualified as prior art under 35 USC 103(c) for use in obviousness rejections. Applicant

informed that the assignment recorded in Sandstrom and in the present application substantiate these assertions. The assignment of Sandstrom to Imation Corp. is recorded in the USPTO at reel/frame 008substantiatehe assignment of the present application to Imation Corp. is recorded in the USPTO at reel/frame 015040/0612. These two recorded assignments demonstrate that the present application and Sandstrom were assigned and/or subject to assignment to Imation Corp. at the time of invention. Applicant's argument and suggestion as well as common assignee statement have been fully considered, and, therefore, rejection of claims under 35 USC 103(a) has been withdrawn.

Allowable Subject Matter

7. Claims 30-35, 42 and 44-52 are allowed.
8. The following is an examiner's statement of reasons for allowance: The amendment of the claims cites stamper having groove structure and track pitch of stamper pattern, wherein such limitations of stamper clearly distinguish over the prior arts of record (See remarks above). None of the cited references in the previous office actions, taken alone or in combination, inter alia teaches or fairly suggests the limitation of stamper as set forth in the claims of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
